

# Institute Batch Management System

The Institute Batch Management System is a comprehensive solution designed to streamline the management of courses and batches within an educational institution. This innovative platform provides a centralized dashboard to oversee all company-level course and batch data, enabling efficient tracking and decision-making.

# Dashboard: All Companies with Course and Batch Counts

## Company A

Courses: 15

Batches: 43

## Company B

Courses: 9

Batches: 27

## Company C

Courses: 12

Batches: 35

# Company Details: Courses with Batch Counts

## CSR Fund Course A

Batches: 15

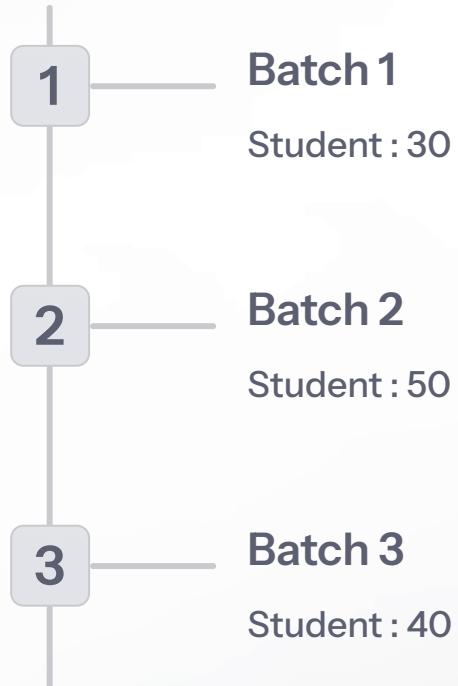

## CSR Fund Course B

Batches: 12

## CSR Fund Course C

Batches: 16

# Course Details: Batch Information

# Batch Management

1

## Create New Batch

Easily set up a new batch for a course, including start/end dates and capacity.

2

## Assign Students

Enroll students in the appropriate batches and track their progress.

# Student Data Table

The student data table provides a comprehensive view of key documents for each student, including Aadhaar card, income certificate, and 10th and 12th grade transcripts. This information is crucial for tracking student eligibility and progress throughout their academic journey.

Aadhaar Card	Income Certificate	10th Grade Transcript	12th Grade Transcript

This comprehensive student data table allows administrators to quickly verify eligibility, monitor academic progress, and make informed decisions to support each student's educational journey.

# Thank You

We appreciate your time and interest in our Institute Batch Management System. This comprehensive platform helps educational institutions streamline their course and batch administration, enabling efficient tracking and data-driven decision-making.
